Professional Experience

ImagineSoftware

Mar 2025 – May 2026

AI Specialist — Business Systems & Workflow Automation

Charlotte, NC

- Partnered with executive leadership, product, operations, engineering, and business development to prioritize healthcare revenue-cycle initiatives and translate operational challenges into scalable business systems, reporting capabilities, and workflow improvements for a multi-eight-figure ARR medical billing SaaS platform.
- Led cross-functional discovery and solution governance by converting operational pain points into business requirements, workflow maps, backlog-ready user stories, acceptance criteria, prototypes, and implementation plans.
- Delivered a radiology document-intelligence solution that contributed to a \$60K enterprise software sale and established recurring document-processing revenue potential.
- Established performance controls for an AI-enabled reporting platform, achieving 95% query-execution success and 73% answer accuracy through business-logic refinement, data mapping, structured evaluation, testing standards, and correction workflows.
- Established enterprise reporting and knowledge-access capabilities spanning 20+ years of healthcare transactional data and 25+ years of technical documentation, leveraging AI, OCR, SQL, vector retrieval, and AWS within HIPAA- and SOC 2-aligned environments.
- Partnered with executives and operational users to evaluate solutions, incorporate feedback, refine business workflows, and support adoption across technical and operational teams.

Brooksource @ Ally Financial

Feb 2024 – Sep 2024

Technical Release Coordinator

Charlotte, NC

- Coordinated enterprise delivery governance across 15+ engineering teams, aligning technical leads, Scrum Masters, release management, and business stakeholders while maintaining 98% on-time execution.
- Managed release readiness, cross-functional dependencies, operational risk, scope alignment, and stakeholder communication for concurrent digital sprint releases.
- Strengthened delivery visibility and accountability through Jira, ServiceNow, and Confluence dashboards, governance reporting, and standardized release procedures that reduced preparation time by 15%.

Domtar

May 2023 – Aug 2023

Test Automation Engineer Intern

Charlotte, NC

- Improved enterprise quality assurance by automating SAP ERP validation workflows with Tricentis Tosca and SQL Server, reducing testing cycle time by 30%.
- Identified, documented, and escalated defects and operational risks, supporting quality controls and release readiness across enterprise systems.

Army National Guard

Mar 2019 – Feb 2021

Combat Medic

Charlotte, NC

- Managed medical documentation, operational coordination, and team communication in high-pressure environments, strengthening leadership, communication, and healthcare workflow awareness.
