Jake Magri

Software Development — Business Applications & Integrations

Charlotte, NC | (704) 421-8832 | jake.magri2@gmail.com
linkedin.com/in/jakemagri | jakemagri.dev | github.com/jake-magri

Summary

Software professional with experience in AI-enabled business applications, document-processing workflows, enterprise testing, and release coordination. Core tools include C#/.NET, SQL, Python, and APIs, with JavaScript/TypeScript web-development training. Brings business context, technical documentation, and clear cross-team communication to implementation work. Seeking an associate software development or application implementation role on a collaborative team.

Technical Skills

Development: C#/.NET, SQL/T-SQL, Python, JavaScript, TypeScript, React
Applications & Integration: REST APIs, AI/LLM integrations, document intelligence, business systems
Quality & Delivery: SDLC, test automation, defect documentation, release readiness, technical documentation

Professional Experience

ImagineSoftware **Mar 2025 – May 2026**
AI Specialist *Charlotte, NC*
- Contributed to AI-enabled reporting, document intelligence, and enterprise knowledge-retrieval initiatives, connecting business needs with solution development, validation, UAT, and handoff.
- Worked with C#/.NET, SQL, Python, and APIs across application and automation work; communicated implementation constraints and findings to technical and business stakeholders.
- Translated a radiology customer's document-processing challenges into a validated multimodal workflow supporting a complex medical-billing software opportunity.

Brooksource at Ally Financial **Feb 2024 – Sep 2024**
Technical Release Coordinator *Charlotte, NC*
- Coordinated enterprise release readiness across 15+ engineering teams, tracking dependencies, approvals, implementation status, and production readiness.
- Communicated delivery status, escalated blockers, clarified ownership, and supported standardized release reporting and handoffs.

Domtar **May 2023 – Aug 2023**
Test Automation Engineer Intern *Charlotte, NC*
- Supported SAP ERP workflows through test automation, workflow analysis, system-issue identification, and defect documentation.
- Communicated testing findings and operational risks with enterprise teams to support quality controls and release readiness.

Selected Web Projects

Volt Underground: E-commerce application using React, TypeScript, MongoDB, and Apollo GraphQL, with cart/checkout workflows and Cypress testing.

HiPub: Conversational discovery application integrating the OpenAI API, LangChain.js, Google Places, PostgreSQL, and JWT authentication.

Additional Experience

Magri Exterior Services — Founder Jul 2026 – Present
Operate an exterior-services business; manage customer communication, scheduling, pricing, and service delivery.

Army National Guard — Combat Medic Mar 2019 – Feb 2021
Supported medical readiness and documentation in structured team environments, developing accountability and clear communication under pressure.

Education & Credentials

University of North Carolina at Charlotte Dec 2023
BSBA, Management Information Systems

JavaScript/TypeScript full-stack bootcamp training
Certified Scrum Product Owner (CSPO), Scrum Alliance Aug 2026
