Professional Summary

Business and technology professional experienced in enterprise release coordination, business requirements analysis, workflow evaluation, and software implementation. Combines a BSBA in Management Information Systems with hands-on SQL, software development, API integration, testing, and cross-functional delivery experience.

Professional Experience

ImagineSoftware **Mar 2025 – May 2026**
AI Specialist — Product and Workflow R&D *Charlotte, NC*

- Collaborated with business users and technical stakeholders to analyze reporting requirements, clarify workflows, evaluate solutions, and translate feedback into technical implementation considerations.
- Supported a natural-language reporting capability spanning 11 business domains and 300+ fields, evaluating requirements against an existing SQL Server Analysis Services (SSAS) analytics cube.
- Validated 79 representative RCM business questions across four formal testing rounds against stored procedures and reference reports, identifying discrepancies in filters, date logic, aggregations, joins, and unsupported relationships. Documented findings and technical limitations for continued R&D handoffs.
- Contributed to a multimodal radiology document-extraction solution associated with a $60K upfront enterprise sale plus recurring per-document revenue. Developed an AWS Lambda knowledge synchronization workflow integrating enterprise documentation, OpenAI vector storage, S3, and EventBridge.

Brooksource at Ally Financial **Feb 2024 – Sep 2024**
Technical Release Coordinator *Charlotte, NC*

- Coordinated software release readiness across 15+ engineering teams, tracking dependencies, approvals, implementation status, risks, and production readiness.
- Facilitated cross-team communication by maintaining release documentation, communicating delivery status, escalating blockers, and clarifying ownership.
- Supported release planning and coordination processes associated with 98% on-time delivery, a 15% reduction in release preparation time, and a 5% reduction in deployment issues.
- Worked with GitLab CI/CD and AWS workflows to support release visibility, deployment coordination, and technical handoffs.

Domtar **May 2023 – Aug 2023**
Test Automation Engineer Intern *Charlotte, NC*

- Supported SAP ERP testing through workflow analysis, test automation, issue identification, and defect documentation.
- Assisted with validating application behavior and documenting testing findings to support software quality.

Additional Experience

Magri Exterior Services **Jul 2026 – Present**
Owner / Field Operations Lead *Charlotte, NC*

- Coordinate customer communication, service scheduling, job scoping, pricing, equipment readiness, and field service delivery.
- Manage customer relationships and develop operational workflows balancing customer expectations, resource availability, and service delivery.

Core Skills

Business Analysis: Requirements Gathering, Business Process Analysis, Workflow Mapping, Functional Requirements, Gap Analysis, Stakeholder Communication, Technical Documentation, Solution Evaluation
Project & Implementation Coordination: Project Tracking, Release Coordination, Dependency Management, Risk and Issue Tracking, Action Items, Status Reporting, Cross-Functional Collaboration, Implementation Readiness, UAT Support
Technical Skills: SQL/T-SQL, C#/.NET, Python, REST APIs, JSON, AWS, GitLab CI/CD, SSAS, OpenAI APIs, Jira, ServiceNow
Delivery Practices: Agile/Scrum, SDLC, Software Testing, Defect Tracking, Data Validation, Technical Handoffs, Process Improvement

Education & Credentials

UNC Charlotte: BSBA, Management Information Systems (2023), GPA: 3.92
UNC Charlotte: Full-Stack Development Certificate (2024)
Certification: Certified Scrum Product Owner (Scrum Alliance), 2026
