Jake Magri

Software Development — Business Applications & Integrations

Charlotte, NC | (704) 421-8832 | jake.magri2@gmail.com
LinkedIn | Portfolio | GitHub

Professional Summary

Software developer experienced in C#/.NET, SQL, API integrations, and AWS workflows. Combines application development, testing, and debugging with requirements analysis and cross-team collaboration. BSBA in Management Information Systems; Full-Stack Development Certificate, UNC Charlotte.

Technical Skills

Languages & Data: C#, SQL/T-SQL, Python, JavaScript, TypeScript, GraphQL, JSON
Applications & Cloud: .NET, WinUI, React, Next.js, REST APIs, OpenAI APIs, AWS Lambda, API Gateway, S3, EventBridge
Engineering Practices: Integration, testing, debugging, data validation, test automation, requirements analysis, documentation, SDLC, release coordination

Professional Experience

ImagineSoftware **Mar 2025 – May 2026**
AI Specialist *Charlotte, NC*

- Developed a C#/.NET and WinUI reporting application integrating OpenAI APIs and T-SQL to translate business questions into database queries and reporting results.
- Built an AWS Lambda knowledge-sync pipeline to ingest enterprise documentation, prepare retrieval content, synchronize an OpenAI vector store, maintain S3 state, and run on an EventBridge schedule.
- Implemented API-based workflows using structured JSON and AWS services, including API Gateway, Lambda, and S3; coordinated with AWS administrators on IAM policies and application access.
- Developed a multimodal healthcare document-extraction workflow for variable-layout forms, handwriting, and checkboxes, supporting a radiology initiative associated with a $60K enterprise sale.
- Validated reporting against 79 representative RCM business questions through four formal rounds of testing against existing reporting logic and stored procedures.
- Worked with business users and technical teams to gather requirements, demonstrate prototypes, test workflows, debug issues, evaluate tradeoffs, document changes, and support handoff.

Brooksource at Ally Financial **Feb 2024 – Sep 2024**
Technical Release Coordinator *Charlotte, NC*

- Coordinated release readiness across 15+ engineering teams, tracking dependencies, approvals, implementation status, and production readiness.
- Communicated delivery status, escalated blockers, clarified ownership, and maintained release documentation for deployment planning and cross-team handoffs.

Domtar **May 2023 – Aug 2023**
Test Automation Engineer Intern *Charlotte, NC*

- Supported SAP ERP testing through workflow analysis, test automation, issue identification, and defect documentation.

Selected Projects

Volt Underground: E-commerce application built with React, TypeScript, MongoDB, Apollo GraphQL, and Cypress testing.
HiPub: Conversational discovery application integrating OpenAI API, LangChain.js, Google Places, PostgreSQL, and JWT authentication.

Additional Experience

Magri Exterior Services — Owner / Field Operations Lead Jul 2026 – Present
Manage customer communication, scheduling, pricing, equipment readiness, and service delivery.

Education & Credentials

UNC Charlotte: BSBA, Management Information Systems (2023); Full-Stack Development Certificate (2024)
Certification: Certified Scrum Product Owner (Scrum Alliance), 2026
Military: Army National Guard Combat Medic, 2019–2021
