Professional Experience

Magri Exterior Services — Jul 2026 – Present

Founder — B2B Sales & Business Development — *Charlotte, NC*

- Launched a commercial exterior-services business focused on **mobile fleet washing and industrial pressure washing**, owning market selection, prospecting, customer outreach, pricing, and business development across the Charlotte market.
- Built a targeted B2B prospecting pipeline of fleet operators, transportation companies, distribution facilities, and commercial accounts using public business data, account research, and structured lead qualification.
- Conduct direct **email, phone, and in-person prospecting** to identify fleet, operations, and facility decision-makers, uncover service needs, qualify opportunities, and advance prospects toward on-site demonstrations and recurring service agreements.
- Developed the commercial sales process from the ground up, including account segmentation, outreach messaging, follow-up cadence, pipeline tracking, service positioning, pricing, and proposal strategy.

ImagineSoftware — Mar 2025 – May 2026

AI Specialist — Business Solutions, Discovery & Enterprise Technology — *Charlotte, NC*

- Owned discovery and solution development for AI-enabled reporting, document intelligence, knowledge retrieval, and patient-estimation initiatives, partnering with executives, business development, product, operations, and engineering from initial business need through validation, UAT, and handoff.
- Supported a radiology client opportunity associated with a **$60K enterprise software sale**, translating customer document-processing challenges into a validated multimodal workflow for complex medical billing operations.
- Led stakeholder discovery across healthcare reporting and operational workflows, clarifying business problems, user requirements, priorities, constraints, and expected outcomes before translating needs into solution concepts and prototypes.
- Presented solution concepts, prototypes, findings, tradeoffs, and progress to technical and non-technical stakeholders, translating complex capabilities into practical business impact and actionable next steps.

Brooksource @ Ally Financial — Feb 2024 – Sep 2024

Technical Release Coordinator — Enterprise Delivery & Stakeholder Management — *Charlotte, NC*

- Coordinated enterprise release governance across **15+ engineering teams**, aligning technical leads, Scrum Masters, release management, and business stakeholders while maintaining **98% on-time execution**.
- Managed concurrent release readiness across scope, dependencies, approvals, operational risk, implementation status, and production readiness while keeping business and technical stakeholders aligned.
- Served as a central communication point across multiple teams, escalating blockers, clarifying ownership, coordinating handoffs, and driving follow-through against high-visibility delivery commitments.
- Improved delivery visibility through standardized reporting and release procedures, reducing preparation time by **15%** and giving stakeholders clearer insight into status, risk, and readiness.

Domtar — May 2023 – Aug 2023

Test Automation Engineer Intern — Enterprise Business Systems — *Charlotte, NC*

- Supported business-critical SAP ERP workflows by analyzing processes, identifying system issues, documenting defects, and communicating operational risks across enterprise teams.
- Reduced enterprise testing cycle time by **30%** through structured workflow analysis, automation, and process improvement while strengthening quality controls and release readiness.

Army National Guard — Mar 2019 – Feb 2021

Combat Medic — *Charlotte, NC*

- Developed disciplined execution, accountability, situational awareness, and clear interpersonal communication while operating in structured, high-pressure team environments.
- Managed medical documentation, readiness activities, team coordination, and operational follow-through while supporting soldiers in field and clinical environments.

Education

University of North Carolina at Charlotte — Dec 2023

B.S.B.A. in Management Information Systems — GPA: 3.92

Scrum Alliance — Aug 2026

Certified Scrum Product Owner (CSPO)
